

PARCELS FOR GERMANY

The need is great—food and clothing parcels are for many people literally a matter of life or death, especially for those who sacrificed their strength and health in the struggle against the Hitler tyranny. Among them are countless tried and tested anti-fascists, who carried on their long struggle against the régime independently of the large parties and organisations. Many of them had to suffer long years of imprisonment as a result of political " crimes " and are suffering from the prevailing want to-day all the more, as they are not receiving any help from the large organisations. *Contemporary Issues* accepts money and gifts of food and clothing on behalf of these isolated individuals. All contributions will be acknowledged and should be sent direct to :
